- Abahussain, E. 415
 Abal, A. T. 415
 Abe, S. 485, 1164
 accelerometer: assessment of relationship of 6MWD and 6MTD with daily activity, in COPD 711
 N-Acetylcysteine: effect on interrelationship between markers of inflammation and oxidative stress, in COPD treatment 241
 acute respiratory distress syndrome: see respiratory distress syndrome, adult
 adenocarcinoma: non-small cell lung cancer, loss of heterozygosity, comparison with squamous cell carcinoma 308
 adhesion molecules: circulating, in allergic and non-allergic asthma 45
 Adler, M. 1275
 adolescents: with asthma, clinical practice guidelines in medical follow-up of 793
 :and children, Greenlandic and Danish, lung function 363
 :"light" smoking and nicotine dependence in 996
 adrenergic β_2 -agonists: see β_2 -agonists
 adults: with active pulmonary tuberculosis, cigarette smoking effect on sputum smear conversion in 415
 :with asthma, clinical practice guidelines in medical follow-up of 793
 :and children, with asthma, repeatability of standardised nasal NO measurements in 1105
 :evaluation of smoking cessation success in 1303
 :patients requiring hospitalisation in Taiwan, aetiology of community-acquired pneumonia 1079
 :sodium intake and bronchial hyperresponsiveness in 864
 :young, CMH as marker of asthma in 1576
 Aerolizer[®]: vs. Easyhaler[®], safety of formoterol after cumulative dosing via 1485
 :reversibility test using, as indicator of clinical efficacy of formoterol in COPD 695
 age factors: prevalence of respiratory symptoms and obstructive lung disease in people aged over 70 186
 age of onset: and disease pattern, of pleural tuberculosis in developed and developing countries 1038
 Aggarwal, A. N. 451
 Aggarwal, R. 451
 Agnew, J. E. 145
 Agusti, A. 1546
 Agusti, A. G. N. 670
 airway: hyperresponsiveness, regional variation in asthmatic children 403
 :inflammation, allergen-mediated, effect of TNF antagonism in asthmatic patients 1175
 :inflammation, in asthma, effects of dual therapy with corticosteroids and long-acting β_2 -agonists 683
 :inflammation, in asthma, treatment with leukotriene receptor antagonists 655
 :inflammation, in COPD, effect of inhalation of thermal water on 748
 :inflammation, nasal and bronchial NO kinetics during early and late phase allergic reactions 1595
 :inflammation, usefulness of standardised nasal NO measurements 1105
 :inflammation/remodeling, effect of anti-inflammatory treatment during clinical remission of atopic asthma 779
 :neutrophils, in mild asthma, after oral vs. inhaled corticosteroids 200
 :obstruction, detection using FEV₆ 103
 :response to hypertonic saline aerosol, effect of cetirizine dihydrochloride in COPD patients 1241
 :structure, relation to bronchial mucosa mast cell count, lung function, and emphysema, in asymptomatic smokers 75
 airway impedance: and forced expiratory manoeuvres, in assessment of bronchial hyperresponsiveness 1046
 airways questionnaire 20 (AQ20): see questionnaires
 Aittokallio, T. 856
 Akcay, S. 1213
 Akgun, M. 1195
 Akira, M. 1188
 Akselsen, J.-P. 11
 Aksoy, F. 1258
 Aksoy, N. 871
 albumin: effect of inhaled steroids and antioxidant treatment in COPD patients' blood 241

- alcohol: see ethanol
- alcohol-induced nasal symptoms (ANS): prevalence of, and comorbidity with respiratory diseases 762
- Alepopoulou, D. 279
- Alexander, K. 1087
- Alexander, M. 1275
- alfentanil: intravenous, double-blind comparison with oral temazepam plus nebulised lignocaine, as premedication for bronchoscopy in older patients 220
- Al-Khal, A. L. 1038
- Allegra, L. 742
- allergen avoidance: for mite and pet sensitised patients, new insights 1363
- allergen challenge: effect of reversal of late asthmatic response on exhaled NO 1591
:nasal and bronchial NO kinetics in asthmatics after 1595
- allergens: asthmatic airway inflammation mediated by, effect of TNF antagonism 1175
:from cats, cutaneous and serological responses in adults exposed or not to cats 535
:relationship between cockroach and house-dust-mite sensitivity, in Turkish asthmatic patients 1032
- allergen sensitisation: association with RANTES G-401A polymorphism in Chinese children 216
:effect of pet ownership 227
- allergic bronchopulmonary aspergillosis (ABPA): prevalence in cystic fibrosis, in area of high frequency atopy 887
- allergic rhinitis: association with alcohol-induced upper airway symptoms 762
:persistent, and bronchial hyperreactivity, early bronchial airflow impairment in 1606
:usefulness of standardised nasal NO measurements 1105
- allergic rhinoconjunctivitis: vs. asthma, association with BMI, in Swedish conscripts 1010
- allergy: asthma due to, levels of circulating adhesion molecules, comparison with non-allergic asthma 45
:asthma due to, ultrastructure of bronchial biopsies, comparison with non-allergic asthma 429
:asthmatic airway inflammation, effect of TNF antagonism 1175
:to cats, cutaneous and serological responses in adults exposed or not to cats 535
:clinical phenotypes distinguishing atopic from non-atopic asthma 347
:environmental factors and IgE sensitisation, relation to exhaled NO levels in school children 1015
- :respiratory, new insights in allergen avoidance measures for mite and pet sensitised patients 1363
- Al Mawlawi, G. 592
- Al-Mughairy, A. 718
- alpha(α)-macroglobulin: effect of cetirizine dihydrochloride on airway response to hypertonic saline aerosol in COPD 1241
- Al Sabbagh, A. 1334
- alveolar disease: contribution to progression of COPD 1053
- alveolitis, extrinsic allergic: caused by misting fountains 943
- Alving, K. 1015
- Ambrosino, N. 1096
- ambulatory care: aetiology of community-acquired pneumonia cases 60
- Amin, D. 1591
- Amin, K. 75
- anaemia: severe, caused by coeliac disease, in a young man with idiopathic pulmonary haemosiderosis 451
- Anastasakou, E. 279
- Andersson, G. 1616
- Andersson, M. 762
- angiotensin II: essential roles in VEGF expression in OSAS 1125
- angiotensin II receptor type 1: blockade, essential roles of angiotensin II in VEGF expression in OSAS 1125
- animals, domestic: and risk of allergic sensitisation and bronchial asthma 227
- ankylosing spondylitis: treated with infliximab, delayed response to anti-tuberculosis treatment in patient with 648
- Anthonisen, N. 1546
- Anthonisen, N. R. 1528
- antibiotics: for upper respiratory tract infections 255
- anticholinergic agents: see cholinergic antagonists
- anticholinergics: see cholinergic antagonists
- antihistamines: see H1 histamine antagonists
- anti-inflammatory agents: treatment during clinical remission of atopic asthma 779
- antioxidants: altered status, in peripheral skeletal muscle of COPD patients 118
:effect on interrelationship between markers of inflammation and oxidative stress, in COPD treatment 241
:and NO, effects on TNF- α -induced adhesion molecule expression, in human PMVEC 580
:and oxidant status, and L-arginine-nitric oxide pathway, in asthma 871
- Anwar, M. 592
- anxiety: association with asthma control and quality of life in asthma patients 1249

- apoptosis: of neutrophils, in sputum of patients with diffuse panbronchiolitis 910
- Arai, T. 1188
- AR-C68397AA: see sibenadet
- Arcasoy, S. M. 1431
- arginase: and L-arginine-nitric oxide pathway, role in pathophysiology of asthma 871
- L-arginine: and nitric oxide pathway, and oxidative-antioxidative status in asthma 871
- Arroll, B. 255, 1477
- arterial blood gases (ABG): role in pathophysiology of exercise dyspnoea in healthy subjects and COPD patients 1403
- :short-term effects of montelukast on, in stable patients with moderate to severe COPD 444
- asbestos: exposure to, role in pathogenesis of rounded atelectasis 615
- Asin, J. 84
- Askew, J. 32
- as-needed treatment: and maintenance treatment, formoterol for COPD 1511
- aspergillosis: allergic bronchopulmonary, prevalence in cystic fibrosis, in area of high frequency atopy 887
- aspiration, fine-needle: with endoscopic ultrasonography, technique for lung cancer staging 179
- Assal, J.-P. 355
- asthma: acute exacerbation, relationship between quality of prescribing and practice appointment rates with management data 735
- :allergen-mediated airway inflammation in, effect of TNF antagonism 1175
- :allergic and non-allergic, levels of circulating adhesion molecules 45
- :allergic and non-allergic, ultrastructure of bronchial biopsies 429
- :vs. allergic rhinoconjunctivitis, association with BMI, in Swedish conscripts 1010
- :association with alcohol-induced upper airway symptoms 762
- :association between psychiatric disorders, asthma control and quality of life in 1249
- :association with RANTES G-401A polymorphism in Chinese children 216
- :association of sick leave with psychosocial and work variables and FEV₁ in patients with 1022
- :atopic, anti-inflammatory treatment during clinical remission of 779
- :atopic, exhaled carbon monoxide levels in 1292
- :atopic vs. non-atopic phenotypes 347
- :bronchial, association with ischaemic colitis 250
- :bronchial, effect of pet ownership 227
- :bronchial, effects of HFA- and CFC-beclomethasone dipropionate on bronchial response to metacholine in 850
- :bronchial, new insights in allergen avoidance measures for mite and pet sensitised patients 1363
- :in children, influence of ETS exposure on relation between lead, cadmium and cotinine concentrations in urine 1521
- :in children, regional variation of airway hyper-responsiveness in 403
- :clinical practice guidelines in medical follow-up of patients with 793
- :CMH as marker of, in young adults 1576
- :computerised limited education program for young adult patients 321
- :control, improvement with beclomethasone extrafine aerosol vs. fluticasone and budesonide 770
- :controller medication regimens, patient adherence to 1263
- :control questionnaire, measurement properties and interpretations of three shortened versions 553
- :or COPD, clinical study vs. "real life" patient population 11
- :vs. COPD, comparison of sputum matrix metalloproteases 703
- :and cystic fibrosis, macrolide treatment 1
- :difficult, prevalence of psychiatric morbidity in 1152
- :dual therapy with corticosteroids and long-acting β_2 -agonists 683
- :due to cat allergens, cutaneous and serological responses in adults exposed or not to cats 535
- :environmental factors and IgE sensitisation, relation to exhaled NO levels in school children 1015
- :ethnic inequalities in 381
- :intermittent or mild persistent, as-needed use of formoterol for 461
- :long-acting β_2 -agonist treatment 384
- :low incidence of paradoxical bronchoconstriction in, during chronic use of Respimat[®] soft mist[™] inhaler 1087
- :mild, airway neutrophils after oral vs. inhaled corticosteroids 200
- :mild, impact on health outcomes 1350
- :mild, lack of systemic oxidative stress during PAF challenge in 519
- :nasal and bronchial NO kinetics during early and late phase allergic reactions 1595
- :outpatient education programme using a personal notebook, treatment outcome 355
- :oxidative-antioxidative status and L-arginine-nitric oxide pathway in 871
- :persistent, efficacy and safety of fluticasone propionate in very young children with 1393

- :persistent, safety and efficacy of once-daily ciclesonide 80 or 320µg for 12 weeks in patients with 1275
- :questionnaire for diagnostic screening in primary care setting 1311
- :relationship between cockroach and house-dust-mite sensitivity, in Turkish patients 1032
- :repeatability of standardised nasal NO measurements in adults and children with 1105
- :reversal of late airway response, effect on exhaled NO 1591
- :safety of formoterol after cumulative dosing via Easyhaler® vs. Aerolizer® 1485
- :stable, long-term management of, choice of delivery device for inhaled corticosteroids 836
- :treatment with B₂ agonists, evolution 152
- :treatment with leukotriene receptor antagonists 655
- :twenty-four hour duration of bronchodilation in, effect of salmeterol/fluticasone combination inhaler 545
- :uncontrolled nocturnal, with OSAS, effect of nasal CPAP 529
- asthma control questionnaire (ACQ): see questionnaires
- Atallah, A. 135
- atelectasis: rounded, diagnosis of 615
- Atikcan, S. 559
- atopy: area with high frequency of, prevalence of allergic bronchopulmonary aspergillosis in cystic fibrosis 887
- :association with RANTES G-401A polymorphism in Chinese children 216
- :asthma, anti-inflammatory treatment during clinical remission of 779
- :asthma, exhaled carbon monoxide levels in 1292
- :asthma phenotypes 347
- atrial natriuretic peptide (ANP): elevated levels in patients with PTE 1286
- Australia: prevalence of allergic bronchopulmonary aspergillosis in cystic fibrosis 887
- Autohaler®: see beclomethasone extrafine aerosol
- autoimmune disease: idiopathic non-specific interstitial pneumonia (NSIP) associated with, clinicopathologic comparison with idiopathic NSIP 234
